

1 Pond A cattail marsh area and important wildlife habitat and water source. A great location to watch birds, deer and turtles.

Bioswale A man-made filtration system that processes pollutants from storm water runoff from the parking lot.

MacEwan Terrace Garden The gateway to the cultural and natural landscapes of Riverwood, consisting of small gardens, perennial borders, specimen trees, garden pergola and an Enabling Garden uniquely designed and programmed for people of all ages and abilities.

MacEwan House Originally constructed in the mid 1800s, with further additions and renovations in 1915, 1950 and 2005, the completed building now houses Visual Arts Mississauga's Great-West Life Heritage Studio & The Riverwood Conservancy's MacEwan Field Station.

MacEwan Barn The stone foundation and timber sections date back to 1840. Renovated in 2006, the barn is used today as an accessible classroom and camp lunchroom by Riverwood tenants.

Visual Arts Mississauga A Mississauga Urban Design award-winning building, clad in natural stone to complement neighbouring MacEwan House.

Parker/Chappell House Gardens Natural landscape surrounding Parker/Chappell House frame tiered gardens with all-season interest and a lily pond.

Parker/Chappell House (home of The Riverwood Conservancy) Built in 1919 in the Arts and Crafts style, this heritage house is located at the end of the winding Riverwood Park Lane.

RIVERWOOD is a special place in Mississauga where history, nature and art blend together to create a peaceful and memorable outdoor experience. A unique 60 hectare (150 acre) urban oasis located in the centre of the city, Riverwood reflects the vast natural, agricultural and cultural history of Mississauga. Here visitors can enjoy more than 475 species of plants and animals. Walk on scenic woodland trails, relax in beautiful and accessible gardens, visit an art exhibition or join a fine art class. Take in all that nature has to offer.
